

Bretz Club 2013 Scientific Program

Tectonics and Landscapes on the Edges of Oregon

Thursday, April 25

Arrive OIMB after 5pm (dinner is not provided)

Check in at Residential Cottage #3 for room assignment

Friday, April 26 – Oregon Institute of Marine Biology, Charleston, OR

7:00am: Breakfast (Dining Hall)

Science Program (OIMB Auditorium, which is near boathouse...see map)

9:00am: Key note #1: **Harvey Kelsey** (Humboldt State University)

Late Quaternary tectonic deformation in coastal Cascade: assembling a story with the aid of sea level history, LiDAR, and backhoes

Coffee break

10:45am: Key note #2: **Josh Roering** (University of Oregon)

The pleasures and perils of steady-state landscapes: A perspective on hillslopes and valleys and history in the Oregon Coast Range

Noon: Lunch

1:30pm: Key note #3: **Liz Safran** (Lewis & Clark College)

Eruptions and interruptions in the high desert: do rivers give a dam?

Coffee break and poster session set-up

4pm: Pop-ups (3-5 minute presentations) on whatever comes to your mind!

5:30pm: Dinner

7pm: *Evening Extravaganza*: Poster session, mini-field trip, raffle, and libations oceanside!

Saturday, April 27 – Saltate, meander, and plummet: sediment pathways in the Oregon Coast Range

Field Trip led by Josh Roering et al.

Departure time: 8am (breakfast at 7am), sack lunches will be provided. The field trip is likely to conclude mid-afternoon at Kentucky Falls.
